Facebook: Where to get the stream key

Format: 16:9 Horizontal 16:9

KEY PAGE · FACEBOOK LIVE PRODUCER

https://www.facebook.com/live/producer

STEP BY STEP

1. Open Facebook Live Producer on your computer.
2. Choose where to post (your profile, page or group).
3. Under “Video setup”, select “Streaming software”.
4. Copy the “Stream key” (and the server URL, if it differs from the one CastDeck fills in).

IN CASTDECK

RTMP destinations → New destination → choose the platform, check the format and paste the URL and the key.

IMPORTANT

- Turn on “Use a persistent stream key” so you don’t have to change the key every live.
- The stream key is like a password: anyone with it can stream to your channel.
- Platform screens change often; menu names may vary slightly.
