Twitch: Where to get the stream key

Format: 16:9 Horizontal 16:9

KEY PAGE · TWITCH DASHBOARD → SETTINGS → STREAM

https://dashboard.twitch.tv/settings/stream

STEP BY STEP

1. Open the Twitch creator dashboard.
2. Go to Settings → Stream.
3. Under “Primary Stream key”, click Copy.
4. The server URL is already filled in by CastDeck (rtmp://live.twitch.tv/app).

IN CASTDECK

RTMP destinations → New destination → choose the platform, check the format and paste the URL and the key.

IMPORTANT

- If the key leaks, use “Reset” on Twitch and paste the new one here.
- The stream key is like a password: anyone with it can stream to your channel.
- Platform screens change often; menu names may vary slightly.
