YouTube: Where to get the stream key

Format: 16:9 Horizontal 16:9

KEY PAGE · YOUTUBE STUDIO

https://studio.youtube.com/

STEP BY STEP

1. Sign in to YouTube Studio with the channel's account.
2. Click Create → Go live (the first time, YouTube may take up to 24 hours to enable live streaming).
3. On the Stream tab, copy the "Stream key".
4. The server URL is already filled in by CastDeck (rtmp://a.rtmp.youtube.com/live2).

IN CASTDECK

RTMP destinations → New destination → choose the platform, check the format and paste the URL and the key.

IMPORTANT

- YouTube's default key is reusable: save it once and use it every time.
- The stream key is like a password: anyone with it can stream to your channel.
- Platform screens change often; menu names may vary slightly.
